Front End Developer with training in Web Designing, with experience in Javascript, CSS/SCSS, React, Redux, Node.js, Symphony and Sulu, among other technologies in the sector. I have experience in collaborating with product managers, designers and back-end developers to create seamless and visually appealing user experiences, ensuring that all web applications are responsive and compatible with various devices, browsers, and platforms.

I translate design mock-ups and wireframes into high-quality code and also participate in code reviews, collaborating with team members to continually improve the quality of our products.

I have worked with international companies such as data.ai and McDonalds.
